Hard Rules

1. **Locality of Reference:** Skills and tools applied to arbitration live in ``skills/`` and ``tools/``.
2. **Red Auditor Stealth Invariant:** The Red Auditor operates strictly in `~/red/`` and must never appear in public repo manifests or file trees.
3. **Non-1:1 Condensation:** Preserve 100% build context while stripping conversational filler.
4. **Reference:** Governed by [Universal file configuration](https://docs.google.com/document/d/1oWzHeX_MIIjyVb0RUBZphdPCoc4Nw0z8ccK4cXgJhIE/edit?usp=drivesdk&oid=105703595761116926460).
