

AUDIT-08-DOT_CLAUDE.md

Audit & Extraction Report: Subfolder 8 of ___Lex-Novi-Æxentis-Copiæ (.Claude)

Scope: Claude Code CLI configuration, SuperClaude framework, cognitive personas, and prompt skill repositories.

Parent Source: ___Lex-Novi-Æxentis-Copiæ/.Claude
(1ViB2jLZTI1IRcMF5_Yf6WXXj7IU3U0kk).

Status: All original files preserved 100% untouched.

1. Purpose & System Role: The Mode A Prompt Architecture

This folder houses the **Mode A (Claude Code CLI + Everything Claude Code)** configuration framework:

- Standardizes slash commands, prompt personas, and custom development methodologies for terminal sessions.
- Separates prompt instruction wrappers from executable codebases per `CLAUDE.md`:

"WHERE: Documentation only. Code does not live here — the vendored checkouts were excised; each entry records what it is and where its source lives."

2. Major Discovery: SuperClaude Framework

- **c10vis-poem/SuperClaude_Framework** (Forked from `SuperClaude-Org`):
 - **Significance:** A comprehensive configuration layer that supercharges Claude Code with:
 1. **Specialized Slash Commands:** Custom tools for repo analysis, pull-sync workflows, and confidence checking.
 2. **Cognitive Personas:** Tailored system prompt personas for architecture reviews, code generation, and test-driven development.
 3. **Confidence-Check Skills:** Pre-commit verification skills that force the agent to self-grade assertions before committing changes.
 - **Action:** Mined into `04_skills_runtime/prompt_skills/` and `novaexopia/modular_harnesses/ecc-claude-code/`.

3. Subfolder Breakdown & Audit

.Claude /

- |—  CLAUDE.md # W5+H State of the Union for CLI tools
 - |—  SuperClaude_Framework.pdf # Documentation on custom commands & personas
 - |
 - |—  1. Claude-Code_SKILLS_/ # Core skills library for Claude Code CLI
 - | |— Mapped into: 04_skills_runtime/prompt_skills/
 - |—  2. skills/ # Community & custom skill definitions (.md)
 - |—  3. CLAUDE_CODE-INFO/ # Environmental notes on running Claude Code in mobile Termux
 - |—  4. claude-ai/ # Reference docs for web orchestration (claude.ai/code)
 - |—  5. Llm Wiki/ # CLI bridges connecting Claude Code to the Obsidian vault
-

4. What Was Combined & What Was Trimmed

- **Fluff Trimmed:** Excluded raw GitHub web page dumps and pull request tracking PDFs, extracting only the active `.claude/skills/` definitions.
- **Combined Frameworks:**
 - Unified the SuperClaude persona rules with Matt Pocock's developer skills framework into the master `03_DUAL_OPERATIONAL_HARNESS_AND_MCP_SPEC.md`.
