

RESUME.md — novus-aeeyre Session State & Checkpoints

Current Subsystem Status

- **Repository Skeletons**: 10 universal baseline subfolders and 4 domain subfolders created.
- **Control Baseline**: MAP.md, manifest.jsonl, README.md, AGENTS.md, RESUME.md, and chunk.jsonl initialized.
- **Next Operational Steps**:
 1. Populate voice_ast_stack/ with Silero VAD state machine and audio routing scripts.
 2. Populate stt_models/ and tts_models/ with ONNX runtime loaders for Moonshine and Kokoro-82m.
 3. Deploy screen capture frame buffers into screen_vision/.
