****Status****: ACTIVE SKELETON MIRROR PROVISIONED & HANDOFF SEALED

****Master Drive Folder****:

1. The 8 Canonical Repositories Locked

1. ****`aesop-xi`**** (`Æsop-Xi`) — Orchestration, arbitration & zero-trust governance.
2. ****`novae-xorpux`**** (`NovÆxorpux`) — Universal database, Living Wiki vault & ground truth.
3. ****`novus-aexenti`**** (`NovusÆxenti`) — Cognitive MoE reasoning engine (0.8B Triage vs. 9B Executor).
4. ****`novaexopia`**** (`Novaexopia`) — Tool harness runtime, native daemons & MCP bridges.
5. ****`raw\_database`**** (`Raw database`) — Cold sensory ground truth & raw ingestion zone.
6. ****`horizons-ui`**** (`Horizons-Ui`) — Master presentation shell & Android Chromium WebView.
7. ****`novus-aesc`**** (`Æsc`) — Terminal & shell daemon (127.0.0.1:5555 ADB loopback).
8. ****`novus-aeyre`**** (`novus-aeyre`) — Media & sensory daemon (Silero VAD, Moonshine, Kokoro).

2. Universal 5+1 Directory Invariants (Inside Every Single Repo)

Every repository root strictly contains:

- ****Baseline Triad****: `MAP.md`, `manifest.jsonl`, `README.md`
- ****Governance & State****: `AGENTS.md`, `RESUME.md`, `pending/`, `audit/`
- ****Transformation Pipeline****: `raw/` → `clean\_md/` → `chunk.jsonl` → `wiki\_md/`
- ****Local Repertoire****: `skills/` & `tools/` (Locality of Reference: skills and tools live where they are applied).
- ****NON-NEGOTIABLE RED AUDITOR RULE****: Completely omitted from all public repo trees, manifests, and listings. Exists ONLY in an isolated, private sandbox.
- ****CONDENSATION LAW****: Reject 1:1 file parity. Strip conversational fat and fluff, but preserve 100% of technical instructions, build details, and parameters so raw and clean markdown build the exact same product.

4. Next-Session Immediate Resume Prompt (Copy-Paste Ready)

```markdown

RESUME INSTRUCTION:

Continue directly with the NovÆXorpus 8-Repository Compilation.

Do NOT re-explain, do NOT draft rough plans, and do NOT ask what to do.

The skeleton mirror is established in

[\_\_NovAeXorpus\_Federated\_Mirror\_Canon](https://drive.google.com/drive/folders/1hKKB3Fhqp  
xn\_agDtuxKz6Ctpy2t1Dp8k).

Proceed immediately with compiling and condensing raw assets from the corpus into:

1. `aesop-xi/` (clean\_md/, wiki\_md/, skills/, tools/)
2. `novus-aexentii/` (clean\_md/, wiki\_md/, skills/, tools/)
3. `novaexopia/` (clean\_md/, wiki\_md/, skills/, tools/)
4. `novae-xorpus/` (clean\_md/, wiki\_md/, skills/, tools/)

Follow the condensation law (strip fat, keep 100% build instructions) and keep the Red Auditor 100% invisible.
