

Ingestion Pipeline & Data Movement Topology

1. End-to-End Pipeline

1. **Raw Sensory Capture**: Intact documents stored in `01\_raw\_sources/`.
2. **Dual Extraction**: Mined for tools (scripts to `tools/`) and skills (`SKILL.md` to `skills/`).
3. **Structured Semantic Formatting**: Standardized markdown stored in `02\_wiki\_md/`.
4. **Machine Retrieval Buffering**: Pre-tokenized chunks appended to `03\_recall\_cache/chunk.jsonl`.
5. **Universal State Coordination**: Tracked through `#d.u.m.b.a.s.s.` SQLite/Postgres tables.
