

RESUME.md — Subsystem State & Verification Record

Current Subsystem Status: PROVISIONED & VERIFIED

- **Repository:** `skills-and-capabilities` (ID: `1No4UJeRLdjUKhuVQnr0ZPqVMmU6uV-sY`)
 - **Active State:** All primary tools and skill suites provisioned and syntax-verified.
 - **Verification Timestamp:** 2026-09-06T19:05:00-07:00
-

Provisioned Assets Inventory

1. Code Review Graph Engine (`code-review-graph/`)

- `graph_builder.py`: Validated via Python 3 compiler; supports Python AST and JS/TS regex parsing.
- `visual_topology_map.md`: Structural guide and metric formulas ($\$F_{\{in\}}\$, \$F_{\{out\}}\$, \$I_{\$}$) established.

2. Deep Corpus Query Engine (`notebook-lmpy/`)

- `query_notebook.py`: Validated; CLI search and citation formatter operational.
- `source_packager.py`: Validated; SHA-256 source bundler with token estimation operational.

3. Vault Hygiene & Graph Engine (`obsidian-skills/`)

- `graph_sync.py`: Validated; wikilink and tag extraction parser operational.
- `markor_sweeper.py`: Validated; manifest discrepancy scanner and credential leak detector operational.

4. Prompt Skills Suite (`prompt_skills/`)

- `grill-me.md`: Aggressive question-based specification refining skill provisioned.
- `spec.md`: Architectural specification drafting skill provisioned.
- `ticket.md`: Atomic issue/task ticket creation skill provisioned.
- `tdd.md`: Test-driven development implementation skill provisioned.
- `code-review.md`: Strict AST-based code review and verification skill provisioned.

Active Session Hand-off

The core analytical and procedural suite is fully provisioned. The next agent session can immediately invoke `graph_builder.py` for repository code maps or utilize `prompt_skills/` for spec generation.
